Art Unit: 2111

1. The examiner acknowledges the cancellation of claims 1-18 and addition of new claims 19-20 by the amendment filed on 7/31/06. Claims 19 and 20 are presented for examination.

2. The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification. Furthermore, all claims should be revised carefully to eliminate all grammatical errors and antecedent basis problems.

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b)

4. Claims 19-20 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 24 and 26 of US Patent 6,721,830 in view of US Patent 5,341,480 issued to Wasserman et al. Claim by claim comparison is shown below:

10/792,16819
20US Patent 6,721,83026 plus known feature in Wasserman's patent
"an address arrangement" of claim 24

The above reference of Vorbach et al. does not claim "wherein the address arrangement is further configured to indicate an end of a data transfer via a signal on a bus". However, the above feature was well known to one of ordinary skill in the art at the time the invention was made as evidenced by Wasserman et al. The reference of Wasserman et al. teaches the feature in col. 5, lines 54-57. It would have been obvious to one of ordinary skill in the art at the time the invention was made to include the above feature in the system of Vorbach et al. to obtain the present claimed invention because that would allow the next bus user of the system of Vorbach et al. to attempt to gain access to the data bus immediately.

5. Claims 19-20 are allowable over the prior art of record, alone or in combination, after filing a proper Terminal Disclaimer. The claims are allowable because combinations recited in parent claim 19 are patentably distinguished from the prior art of record. Dependent claim 20 further limits the subject matter of parent claim 19.

If applicants are aware of any prior art better than those are of record, they are required to bring the prior art to the attention of the examiner. Applicants are also reminded that each individual associated with the filing and prosecution of a patent application has a duty of candor and good faith in dealing with the Office, which includes a duty to disclose to the Office all information known to that individual to be material to patentability as defined in 37 CFR 1.56. Applicants are advised to submit any information material to patentability in accordance with 37 CFR 1.97 and 1.98.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
